Final Osteotomy Former Drill Stop Kit

The drill stop kit gives you the vertical control you desire

The Final Osteotomy Former Drill Kit gives you the vertical control and safety you desire for each case. When a drill stop is used, it will prevent over-drilling and ensure that you have gone to the full depth of the desired osteotomy. These stops can be used when placing all styles of OCO Biomedical Implants.

Terms & Conditions

Shipping, Return Policy, Implant Warranty, & Contact Information

How Can I Order Your Products?

Call our customer service department at 800-228-0477
Monday - Friday 8:00am to 5:00pm Mountain Time. You can
also go to www.ocobiomedical.com.

When Will My Shipment Arrive?

OCO Biomedical ships through FedEx exclusively, transit times
are as follows:

Overnight: Delivery next business day by 10:30am

2nd day: Delivery in 2 business days by 4:30pm

Ground: Delivery within 4-5 business days, by the end of day.

What is Your Return Policy?

All product must be in new and saleable condition (returned
in the original packaging) with the manufacturing seals intact.
Original invoice number and purchase date must accompany
product in order to process the return. Product returned
within 30 days of purchase can be returned for refund in the
form of original payment. Product returned 30-60 days after
purchase can be exchanged for same product or credit on
account only. Product returned 60-120 days after purchase
will require a 15% restocking fee and credit on account only.
Product returned 120 days-1 year after purchase will be
exchanged for same product (implants only). No products
can be returned after 1 year, with no exceptions. The returned
product must be enclosed in safe, protective packaging such
as a padded envelope or box. Please mark the outside of the
package to the attention of "Returns".

Return Address: OCO Biomedical Inc.,
Attn: Returns
9550 San Mateo Blvd. NE, Suite C, Albuquerque, NM 87113

Do You Have an Implant Warranty?

OCO Biomedical Dental Implants are warranted
unconditionally against defects in material and workmanship
for 5 years after production. The warranty covers only the
cost of the implant and does not cover professional fees or
restoration components. If a defect is found, please do not
use the item. Simply return the item after notifying OCO
Biomedical, and a replacement item will be delivered at no
additional charge. OCO Biomedical Dental Implants are
conditionally warranted if failure occurs within 2 years after
placement provided that: the implant was returned
un-cleansed, the implant was used with an OCO Biomedical
abutment, and the implant and abutment, if applicable, are
returned to OCO Biomedical accompanied by a completed
Implant Incident Report, including lot number, catalog
number and pre/post x-rays. The implant must be returned
within 30 days of removal/failure. A Implant Incident
Report may also be obtained through the Quality Control
Department.

Product Sterilization Disclaimer

Implants: OCO Biomedical opposes the resterilization
of implants after they have been removed from the
vial or placed in the jaw because of the possibility of
the transference of blood borne pathogens or other
contaminants.

All other surgical instrumentation: OCO Biomedical
recommends using a steam sterilization unit at 121
degrees Celsius for 15 minutes with a drying time of
30 minutes.
